

**Have Doctors ever steered us wrong before?
Has Medical “Science” ever steered us wrong before?
Have Trusted Sports Figures or Celebrities ever steered us wrong?**

Go on YouTube and search “cigarette ad doctor”. See what doctors used to say about smoking... EVEN when they knew it was bad.

Famous baseball giant Babe Ruth talks about “Medical Science” offering “proof” of a safer cigarette

I Love Lucy and Ricky remind you that you won't get a ‘cigarette hangover?’ because they are medical professionals, right?

Even a baby gets in on the act. YES!!! This IS a real ad.

Many Pharmaceutical Companies are owned by the same stakeholders as Big Tobacco.

Do you think they could steer us wrong again in the name of profitability?
